

# TRAFFIC FLOW AT KASUMBALESA BORDER POST

14/03/22

The Zambia Revenue Authority (ZRA) wishes to inform its stakeholders and the general public that we are currently experiencing slow movement of traffic at Kasumbalesa Border Post. This is due to ongoing renovations to the truck yard on the Democratic Republic of Congo (DRC) side of the border.

In order to manage the flow of traffic and enhance the efficiency of our clearance procedures, all clearing agents are reminded to ensure that all consignments destined for DRC are pre – registered on the ASYCUDAWorld system.

In addition, ZRA has implemented the following measures:

- Deployment of additional officers to the entry and exit gates at Kasumbalesa
- Extended working hours at the Central Processing Center from 18hrs to 20hrs
- Validation of departure of goods prior to arrival for Customs Accredited Clients
- Joint marshalling of traffic with the Zambia Police Traffic Unit
- Active engagement with the DRC on the traffic situation.

We regret the inconvenience this situation has caused. ZRA is doing everything possible to ensure the situation normalises in the shortest possible time.
